- Saginaw, Michigan 48604, April 2007 – SWS-Trimac, Inc. Adds ProtoTRAK Lathe.

SWS-Trimac, Inc has added a CNC / Manual Lathe to its machinery arsenal. This machine opened up the overall machine shop's capacity with its versatility.

- Saginaw, Michigan 48604, May 2007 – SWS-Trimac, Inc. Adds Assembly Room.

SWS-Trimac, Inc. has added a 400 square-foot assembly room to the Saginaw Production Facility. A customer has had SWS-Trimac, Inc build and assemble many hydrogen fuel-cell systems; this has shown the need for an environmentally controlled room specific for this task.

- Saginaw, Michigan 48604, June 2007 – SWS-Trimac, Inc. Adds Passivation Line.

SWS-Trimac, Inc. has added a Passivation line to its arsenal of capabilities. This new addition will allow SWS-Trimac, Inc. to do this operation in-house, instead of out-sourcing it. This will cut down the time it takes to complete projects and help maintain on-time deliveries.

- Fort Wayne, Indiana 46825, June 2007 – SWS-Trimac, Inc. Adds Trumpf Profiweld Micro Laser.

Last Year SWS-Trimac, Inc. added a Micro Laser allowing the company to enter the manual laser welding market; it also reduced the need for complex weld tooling in some Electron Beam Welding applications. The need has arisen again and at the end of this month they will take possession of a new Trumpf Micro Laser Welder.
